### Have Invented Gasoline Saver

Mr. John Slek and Dr. W. A. Piper of Calgary, have invented a little attachment for a gasoline engine which is claimed will increase the power of gasoline very much over the usual results secured. They have run over 35 miles on a gallon of gas. It is claimed it can be used on any gas engine. They are having a hundred manufactured and they will be on the market next week. If this little attachment works out as it is claimed it will there will not only be good money for the inventors but it will be a tremendous saving for gasoline users.

Mr. Barrell wishes to state that his horse Minnesota Patch did not

run in the 2:40 race at the Fair, Machon of Grassfield, he states, won this race.

### U.G.G. Want Cattle to Ship to England

The U. G. G. have asked Mr. Peel Mayle to notify them as to how many cars of steers weighing thirteen hundred or better could be shipped from this district by the first week in November. They are considering the co-operative shipping direct to the old country. Reports indicate a profitable market for Canadian cattle. The idea is to pay 50 p cent in advance when delivered to the Calgary stock yards the balance as the returns warrant. Further information will be available in the near future.

## Didsbury Plays Medicine Hat Saturday

The final game for the Inter-mediate Championship of Alberta between Didsbury and Medicine Hat will be played at Calgary on Saturday afternoon at 2:30. Every person who is able should make it a special point to go to Calgary on Saturday afternoon to support the team. They have played consistently good ball all through the season and it would be too bad if they felt that they did not have the support of the home fans in this Championship game. It will be an easy matter to go down with the boys and help them bring home this honor.

Three baseball championships will be decided in Calgary on Saturday. Besides the Western Canada Pro-League flag fight to finish next week, the senior and intermediate amateur titles for the province of Alberta will be decided on Saturday, at Victoria park diamond.

The Lethbridge Seniors, winners of the southern group honors, are scheduled to meet the Calgary Monarchs at 1:30 o'clock on Saturday afternoon. In the senior semi-final, and then at 2:30 o'clock, Medicine Hat and Didsbury, intermediate contenders will meet in their final game. At 3:15 o'clock, the Edmonton club will close with the winner of the Calgary-Lethbridge game for the senior championship. E. D. Battram, secretary of the Alberta Amateur Baseball Association has given out this draw. The Herald Club goes to the senior champions and the Goldsmith trophy is awarded to the Intermediates.

## Federal Election Soon

LONDON, Sept. 2.—An election before the end of the year with the tariff question as the chief and only issue before the people was the message delivered by the Rt. Hon. Arthur Meighen, prime minister of Canada, last night before an audience that taxed to capacity the largest theatre in London and also overflowed in generous hundreds to the street.

Then, Mr. Meighen was in splendid form. He disposed of his opponents' canvasses categorically; he dismantled the scarecrows that United Farmers have erected against his administration; and he demonstrated beyond peradventure that the future of Canada is bound upon the same national policy of protection that made confederation possible and that gave us a prosperous Dominion today.

Mr. Meighen is frank. In his references as to an election, Mr. Meighen was more than frank; in fact he went further than his friends and enemies had expected. He came out openly and stated that while he would prefer, and had sincerely intended, to follow a reelection bill, he found that the constitutional returns could not be expected before December, and that would mean at least a mid-winter campaign. "This the prime minister said was impossible. When one considered the great northern and western population, a mid-winter election in the Canadian latitude was not thinkable. "There is therefore no means of redistribution, except at the price of holding the country in suspense of very difficult times for 18 to 20 months on an issue that goes to the heart of our industrial and national life.

"For these reasons I think the right thing to do is to recommend a dissolution of parliament at an early date is provided for full discussion, and election before the New Year." That course I intend to pursue," said the prime minister, amid cheers that rocked the Grand Opera house to the foundation.—Calgary Herald.

## Small Bank Accounts

We welcome even the smallest accounts and extend the same service to the patron depositing one dollar a week, as to the firm banking thousands.

Moreover, that deposit of \$1 a week, continued regularly, and including interest at 3% compounded semi-annually, gives you a balance of \$280.26 in five years.

## UNION BANK OF CANADA

## New Officers W. C. T. U.

The following officers were elected at the annual business meeting of the W. C. T. U.

Pres.—Mrs. H. Reiber  
Vice Pres.—Mrs. W. Douglas  
Secy.—Miss Z. Greenman  
Treas.—Mrs. J. V. Berscht  
Corr. Secy.—Mrs. H. Reiber  
Organist—Mrs. J. Benson  
Superintendents of departments are as follows:  
Bible—Mrs. W. Douglas  
Scientific Temperance—Mrs. Reiber  
Purity and mother meetings—Mrs. J. H. Behn  
Flowers, fruit and delicacies—Mrs. G. Lecomte  
Travelers Aid—Mrs. H. Reiber  
Medical Temperance—Mrs. H. Meighen  
Moral Contest—Miss E. Maple  
Pioneers work—Mrs. D. Geiger  
Fellowship and Pairs—Mrs. J. V. Berscht  
Lumber camps and tents—Mrs. J. Benson  
Little white ribbons—Mrs. D. Geiger  
Work among foreigners—Mrs. J. Meighen.

### Finances

Paid to Orphans Home at Olds, \$49.99  
Paid to Social Service League \$20.00  
Paid to work among foreigners, \$25.00  
Paid to Provincial work, \$25.00  
Paid to Play, and district class, \$12.10  
Paid to flowers for the sick, \$18.50  
Paid to medical resident nurses, \$20.99  
Paid to literature for medical students, \$1.42  
Paid to organization work, \$10.00  
Paid to Francis Willard memorial offering, \$2.00  
Paid to Report books \$20.00  
Money received during the year, \$564.75  
Money paid out during the year, \$421.08  
Much interest is being shown in this good work.

Labor Day in town was very quiet. We don't know whether every person went duck hunting or not but we know that a large number of the sports left town with the usual plethora of ducks to spare the ducks and some of them bagged some fine specimens.

BORN—On Monday, September 5th, 1921, at the Didsbury General Hospital, to Mrs. J. S. Finlay, a daughter, Mary, Isabelle, Joyce.

## Millinery Opening

Carstairs, Sept. 17th  
Olds, Sept. 20th

All ladies are very cordially invited to attend.

MRS. H. W. CURRY

## NOTICE—DANCE

A dance will be held in Harmon hall on

FRIDAY, SEPTEMBER 9th  
Three piece orchestra.  
Everybody welcome.

### NOTICE

#### Tax Recovery Act

Take notice that the following land has been sold by the Municipal District of Mountain View No. 519, Alberta, an account of nonpayment of taxes, and the year allowed for redemption will expire on the 15th day of November, 1921.  
South West Quarter Section 28, Township 31, Range 1, West of the 5th Meridian.  
If you wish to contest the legality of the sale of such lands, you should immediately make application to the Judge of the District Court of the Judicial District within which the land is situated, for an order staying the issue of a certificate of title to the purchaser of such lands.  
Dated this 29th day of August 1921, at Didsbury, Alta.  
Alfred Brunson.  
Secretary Treasurer Municipal District of Mountain View No. 519.

## England's Traditions

In a young and new country like Canada, and especially when the population is of a most cosmopolitan character, a regular polyglot of languages and races, there is apt to develop a feeling akin to contempt for the historical past and those traditions of other lands which have been handed down from generation to generation and become woven into and a part of the national character. There is liable to be an impatience with all that savors of precedent and a scorn of reliance upon long tried principles and policies which have brought the race to where it is today, enlarged its freedom and protected its liberties.

Granted that it would be a mistake for any new country to simply rely upon and slavishly follow in the footsteps of other lands, and their historical past; admitting that only by new departures, by blazing new trails, by a courageous initiative, can there be progress—it is none the less true that in the forward march the safe, the prudent course is to retain a strong anchor in the past; to press onward, not by the adoption of revolutionary methods, but through wise evolution, profiting by the mistakes and lessons of the past, but inspired by the glorious traditions and achievements of our forefathers and guided by their open experience and wisdom.

What made England the bulwark of the Allied cause throughout the long drawn out years of the Great War? Why was it that Germany feared England more than all her other enemies combined? And why is it that in these trying first years of peace in a world turned topsy turvy it is to England the whole world looks to carry the major portion of the world's burden and work out the world's salvation?

It is not that the men and women of the English race are so much more clever than those of other races; it is not that they are, taken as a whole, intellectually superior; it is not that they are gifted above all other peoples. No, it is not because of these things. But it is because there is grounded in the people of England—not merely those now living within the confines of England, but in all parts of the world—the great traditions of England, the inspiration of England's literature, the lives, the words, the deeds of England's great men. It is such traditions as that established by England's sagas, "Women and children first," and "the captain was the last to leave the sinking ship," that has maintained untarnished England's mercantile service and made her naval supremacy no threat to the world. "England never knows when she is beaten," impatiently declared one of her greatest romancers in a bygone age, and that tradition remained with the soldiers and sailors of Great England throughout the Great War, even in the darkest days, inspiring them on to match victory from the very jaws of defeat.

Strong, stern, implacable in battle, England is ever chivalrous toward peace but defeated foe. An Englishman admires a good fighter and is the first to admit his good qualities, whether it be on the battlefield or the field of sport. English sport the world over is a synonym for "clean." "Play fair" has become a national characteristic.

Down through the centuries England, while tenacious of her own rights and privileges, has fairly recognized the rights and privileges of others. Even when an autocratic sovereign has on occasion done wrong and persisted in it, the real heart of England has opposed that wrong. In a word it is a tradition of England to be just, and even those who condemn some of her policies in past centuries must, in truth, recognize that in those less enlightened years England was in advance of other countries, plodding on toward a brighter, better day.

From these traditions there has grown and developed a strong national character, a national pride, a high sense of national honor. When England gives her word, all nations recognize that she will keep it. Belgium relied upon the word of England in 1914, and did not rely in vain. Germany, alone, failed to realize that England's pledges are made to be kept and not treated as scraps of paper. Only recently, during the world-wide discussion of the question of renewal of the Anglo-Japanese treaty, Lloyd George again advised a crisis, when, after pointing out how Japan had faithfully fulfilled the obligations during the Great War and made possible England's great effort in France without the handicap of guarding the Pacific, he added: "Shall England, having accepted this assistance when it was so urgently needed, turn round and refuse to maintain the mutual obligation now that England does not require it?" Englishmen emphatically answered no.

England's traditions are the source of England's strength and England's greatness. They are the warp and woof of the national character. With-out them in these days of world upheaval England and the British Empire might easily be rent asunder and go down in the oblivion of other great empires of the past. No country can truly call itself a nation until it has achieved great traditions. Despite all the horror, suffering and loss of the Great War, it has almost conferred this honor on Canada that it has given our people one great tradition, one that will live forever and will leave an indelible impression on all future generations of Canadians.

### Accredited Herds

Sixty Thousand Dollars a Month Has Been Spent in this Work.

Since September, 1919, the "accredited herd" plan has been partly in operation in the Dominion. The system originated among breeders in the United States who had recognized for a long time the serious disease which tuberculosis had been making in their herds and in 1917 the Federal Government adopted their suggestion.

## CASTORIA

For Infants and Children In Use For Over 30 Years

Always Bears the Signature of *Dr. J. C. Williams*

There are in Canada at present about 17 duly accredited herds, that is, herds which have undergone the three semi-annual tuberculosis tests and have been proved disease free. Their distribution among the provinces is significant. British Columbia has 7, Ontario, Manitoba and Saskatchewan 2 each, and Quebec has 4. For the last three months an expenditure at the rate of \$60,000 a month has been made on this head, but it is understood that owing to the general financial stringency, the work cannot be continued at this rate.

By making your purchases from your home or neighborhood dealer in medicine, you are contributing direct to the prosperity of the community in which you live. Ask for Mink's and take no other

## Fighting Grasshoppers

Tremendous Amount of Material Used in Waging War Against Plague.

The fight against the grasshoppers for 1921 has been finished in Saskatchewan, but a still greater battle over a larger area is in store for next year, according to officials of the department of agriculture. The total amount of materials mixed into poison this summer is staggering and include 3,024 tons of bran; 100 carloads of sawdust; 361,233 pounds of arsenic; 10,100 pounds of paris green; 92,360 gallons of molasses; 895 barrels of salt.

### Fish In Abundance

Abundance of fish is reported from all points on the southern portion of the Labrador coast and numerous schooners are returning to Newfoundland ports with full cargoes. It is also anticipated that the bank fishery on the west coast of Newfoundland will be the best for many years.

## You May Have Kidney Trouble and Not Know It

If your back aches and you suffer from dragging pains, it is an evidence you kidneys are acting just right. What you need is a course with Dr. Hamilton's Pills. They contain a mild, harmless, and powerful and act very beneficially upon the liver and kidneys. "I was bothered a great deal with my kidneys, but got quick relief from Dr. Hamilton's Pills. My trouble manifested itself by pain in the back and by constant headache. I quickly recovered after using a few boxes of Dr. Hamilton's Pills. They brought me health, strength and vigor. I am now everywhere," writes The Catarhozone Co., Montreal.

### Rye In Drought Areas

Expected There Will Be One Million Acres Sown in Rye This Year.

M. A. Brown, of the Western Canada Colonization Association, which has returned from a tour of Southern Saskatchewan and Alberta, where he took part in the campaign for increased fall rye acreage in the drought stricken areas, said that it is expected there will be sown one million acres in rye this year. Fully 50 per cent. of the farmers in these districts will seed a portion of their land to this crop. Results of farmers who have tried rye are all in favor of the crop for the drought areas, he said.

## GOOD HEALTH CAN BE YOURS

If Your Blood Supply Is Kept Rich and Pure

It is a waste of time and money to fight merely the signs of disease; in the long run you are probably worse off than when you started. What is far more important is that you should intelligently examine the various symptoms and treat them as you remove the cause, health will be yours. For example, anemic people often, without knowing it, suffer from while treating its symptoms, such as indigestion, shortness of breath, palpitation of the heart and exhaustion after any small effort.

The apparent stomach and heart troubles are generally nothing more than the result of an insufficient supply of pure blood. This anemic state may have followed some previous illness, or an attack of influenza or it may have arisen from overwork, worry, or too little fresh air. To obtain good health the simple and proper course is to build up the blood, but to do this you must select a reliable remedy with a reputation such as Dr. Williams' Pink Pills. These pills enrich the blood which carries nourishment to all the organs of the body and enables them to do the work nature expects of them. Thousands of men and women have proved this for themselves. One of these is Mrs. T. Flynn, R.R. No. 1, Emerson, Minn., who writes: "Last spring I got into a badly run down condition. I had no energy; work left me exhausted, and got a half dozen boxes. I had not been taking the pills long when I felt a decided improvement in my condition and by the time I had used the six boxes I could do my housework with ease. I am now, I am glad to say, Dr. Williams' Pink Pills to all weak people." You can get these pills through any dealer in medicine, or by mail, prepaid at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

## It Certainly Delivers The Goods, Declares Manitoba Merchant

"Tanlac has made such a big change in me that I feel like an entirely different man," said Chas. W. Cohen, well-known business man, residing at Stockdale, Man.

"The medicine has put me on my feet in the very best of health, and I am only too glad to give it my highest endorsement. For three years I was in very bad health and didn't know what it was to feel right. Everything I ate seemed to sour in my stomach and I had an uncomfortable bloated up feeling that lasted for hours at a time."

"I couldn't sleep soundly, could scarcely eat a thing, was going down

rapidly in weight and my work was just a drag to me. I was nervous and restless, scarcely had any strength or energy, and, in fact, wasn't myself at all."

"When I read the statement of a man who had gotten rid of troubles like mine by taking Tanlac, I decided to try it myself. Well, six bottles have fixed me up so fine that I eat good and hearty of just everything I want now, and never feel a sign of distress. I have regained all my lost weight and strength and can say for Tanlac that it certainly delivers the goods."

Tanlac is sold by leading druggists everywhere.

### Earth Collided With Comet

Planet Believed to Have Passed Through Comet's Tail on August 8th.

Announcement is made at the Koenigsht Observatory in Heidelberg, Germany, that the earth passed through the tail of a comet on the night of August 8.

At sunset on August 7, a bright object was observed near the sun by W. W. Campbell, director of Lick Observatory, which is located near San Jose, California. Fire persons saw the celestial object, and reports from the observatory indicated that experts there believed it might be the nucleus of a comet. It would appear probable that this identification was correct, in view of the foregoing report from Germany.

### The Change

To some women a man is considered a possibility for a time. —John F. Johnson.

### Asthma Doesn't Wear Off Alone

Do not make the mistake of waiting for asthma to wear away by itself. While you are waiting the disease is surely gaining a stronger foothold and you live in danger of stronger and yet stronger attacks. Dr. J. D. Kellogg's Asthma Remedy taken early, will prevent incipient condition from becoming chronic and save hours of suffering.

### Home Bread Making

Suggestions as to Requirements to Secure the Best Results.

Bread-making is an art not nearly so extensively practiced in the household as in bygone days. In urban districts it is so little practiced that home-made bread has come to be regarded as a luxury. The reason is not far to seek. Trouble is avoided and professional bakers turn out an article of good quality generally, and at a price little in excess of what the cost would be if made by the housewife or the cook. And then the baker has facilities that the housekeeper has not. For instance, one of the main difficulties encountered when bread is being made in the home is the lack of a place where the dough can be kept at suitable and even temperature throughout the whole period of fermentation. Relative to this fact, Dr. C. E. Saunders, the Dominion Cerealist, in a bulletin recently issued at Ottawa on "Wheat, Flour and Bread," says that where bread is made very often it would be advisable to construct a special fermenting box or cupboard, where the temperature can be maintained at between 80 and 90 degrees. Once the process of fermentation has started the dough must not be allowed to become either chilled or overheated. A little butter, lard or other shortening reduces the toughness without detracting from the flavor. Sugar should be used in great moderation. Dr. Saunders goes fully into the subject and quotes methods that he recommends for home bread-making, which he says is undoubtedly cheaper than the product of the bakeries, particularly in the winter, when no special fire has to be made.

Those who marry for money can afford to repent at leisure.

Mink's Liniment Lumberman's Friend

### Flies and Colors

The House Fly Seems to Have Color Preference.

If you want to make your room attractive to flies, paper it in bright yellow. They like that color best. They do not seem to care about blue, green or orange, one way or the other. Red they markedly dislike.

House flies are our most intimate companions and everything that can be learned about them is worth knowing. Their color preferences have been ascertained by recent elaborate experiments.

### Catarrah Conditions

Catarrah is a blood disease greatly influenced by constitutional conditions. It therefore requires constitutional treatment. HALL'S CATARRH MEDICINE is taken internally and acts through the blood upon the Mucous Membranes. HALL'S CATARRH MEDICINE gives the patient relief by driving out general health and assisting Nature in doing its work. F. J. Chene & Co., Toledo, Ohio.

### Memorial to British Heroism

Lieutenant-Colonel Hunter Weston, who was recently decorated to investigate, has recommended that the British memorial at Gallipoli be erected on an eminence five hundred yards northeast of the Hill's Lighthouse. This site will overlook the scene of one of the most memorable exploits of the British ship Clyde in the gallant endeavor to land troops.

No man or woman should hobble painfully about because of corns when so certain a relief is at hand as Holloway's Corn Remover.

Some schools of mackerel are half a mile wide and twenty miles long and are estimated to contain one million barrels of fish.

One British military cemetery in France, just outside Boulogne, contains nearly 12,000 graves.

## SHE TOOK HER MOTHER'S ADVICE

Now is in the Best of Health because she took Lydia E. Pinkham's Vegetable Compound

Keosauk, Sask.—"My mother has taken Lydia E. Pinkham's Vegetable Compound for many years. Upon learning of my troubles, she advised me to try it. As I seemed all run down from the flu and had leucorrhoea very bad, I bought a box of Lydia E. Pinkham's Vegetable Compound and Lydia E. Pinkham's Blood Medicine and used the Sanative Wash also. Dr. Brown's Capsules and Prescription and much better in every way. I am willing for you to use my letter as a testimonial as I recommend your medicine." —Mrs. LEMMON NIELSEN, Keosauk, Sask.

It is not always in business that a woman is forced to give up her work on account of ill health. She is often the woman who does her own work at home. When backaches and headaches and all ailments, when that bearing-down sensation attacks you, when you are nervous and blue, this great help for such ailments, Lydia E. Pinkham's Vegetable Compound.

**G. T. P. Stock Valueless**

OTTAWA, Sept. 8.—The award of the Grand Trunk arbitration board, made public yesterday, is that the common and preferred stocks of the Grand Trunk railway, which have a par value of £37,975,432, are worth nothing.

Sir Walter Cassels, chairman, and Sir Thomas White, government arbitrator, presented the majority ruling. Hon. W. H. Taft, representing the Grand Trunk, presented a dissentient judgement. The board was appointed to set the value at which the common and preferred stock should be taken over by the government.

**SPRINGSIDE NEWS**

Springside school has opened again on the 22nd of August. Miss Silverthorn from Calgary is our new teacher.

Everybody is busy cutting their good crops of grain and we hear that threshing is going to start soon.

Mr. Lawrence McNaughton motored up from Calgary last Saturday and stayed over the week end.

Mr. and Mrs. Thede are back from a trip in Michigan and Ontario.

Mr. C. Shaw is working for Mr. and Mrs. Grey, who came from England to this country about a month ago.

Misses Evelyn and Helen Webster

were visiting with Miss R. Boutin last Wednesday.

Mrs. A. McNaughton and daughters Misses Pearl and Ruby, are back after a month's vacation spent in Banff. Miss Ruby will be teaching again at Mount Royal College in Calgary.

Misses Dorothy and Manie Orde are in Canmore attending Normal School. Our sympathies to Bryan.

Miss Pearl McNaughton was the guest of Miss L. LeGault last Wednesday.

Of our Springside people who won prizes at the Didsbury Fair were:—

Mrs. Henry Collinge won second prize in heavy draft team.

Mr. A. LeClaire, 1st prize for a purebred Holstein bull calf; 1st prize for sunflowers.

Mr. O. Spitz won a great many prizes in poultry and 1st prize for his wheat.

**WESTCOTE BAPTIST CHURCH**

Special services will be held from Sunday September 11th, to Friday September 16th. Bible Exposition 8 p. m. each evening, speaker Mrs. E. R. York of Toronto.

**WESTCOTE RESIDENTS VISIT THREE HILLS**

On Saturday last Mr. and Mrs. L. H. Levaagood and Thelma Levaagood, with Mr. and Mrs. C. C. Rinehart motored to Three Hills returning on Monday. The weather was fine and the roads were good which made it a very pleasant trip. The visitors called on Mr. John Brown, north of Three Hills, on Sunday afternoon and were invited to Mr. Sanderman's place to celebrate the birthday of one of their sons who is here from Iowa visiting his parents and brothers and sister. The crops are light around Three Hills except on the land that was summer fallowed. As the visitors drove through the country it looked to them as if about one half of the land that is broken up is being summer fallowed this year. We think the Didsbury farmers should summer fallow more land and they would have cleaner farms and less work to get their crop in the next spring and more grain in their granaries the next fall. We saw eight threshing machines threshing grain near Three Hills. The threshers said that wheat was yielding from 8 to 29 bushels per acre and all a good sample.

**BIBLE TEACHER TO VISIT WESTCOTE**

Mrs. E. R. York, who is coming to address a series of meetings in the Westcote Baptist Church, as elsewhere announced in this issue was engaged in rescue work for girls prior to her entrance upon her present ministry. Her recently published book "Feathers and Yellow Gold" (see Psa. 68:13) records God's leading in the establishment and maintenance of Redemption House, Toronto, and is a marvellous account of God's faithfulness, turning from a life of culture and refinement to pour lavishly of God's love into lives desolated and darkened by sin, lacking financial means, but possessing a wholehearted confidence in the promises of God. Mrs. York entered upon her work. No better time for faith can be imagined than this simple narrative of trustful dependence upon the Lord for every need, for though faith was often tested the issue was always triumphant.

Her present ministry of Bible teaching is made the more effective by her own rich experience of the reality of the truths of the deeper Christian life which she sets forth from the treasure house of Scripture.

All who possibly can should take advantage of this opportunity of hearing Mrs. York.

THE WORLD IS AS YOU MAKE IT

**Wanted and For Sale Ads.**

One insertion 50c; two or more insertions 35c each.

**LOST:**—Child's crocheted sweater, red trimmed with grey. Between Oliver Stauffer's farm and Didsbury, on Sunday August 14th. Finder please leave at Pioneer Office 7p5.

**A Source of Power**

The steam and gasoline engines represent the most powerful and steady source of power that we have today. The steam or gasoline is concentrated in a confined space which gives it this power. Do you ever consider this in regard to advertising?

The power that is contained in space occupied by an ad. in the Pioneer has a pulling power that is expended on hundreds of readers that you cannot begin to reach by word of mouth which is like the old way of pulling a wagon by oxen or getting power from the old fashioned water-wheel.

Tending Graves of Canadian Dead in France.

**What's a Guarantee?**

Our idea of a guarantee is that the manufacturer who gives one—which has no any tags and loopholes—believes in his product.

So much so that he stands ready to make good any loss suffered by the purchaser through defective material or workmanship.

It's mainly because of the guarantee that goes with them that we are selling and recommending Ames Holden "Auto-Shoes."

Of course, we know they give the cheapest mileage too—that they are dependable tires for any make of car, anywhere. But it's the guarantee that we talk about most. It's the straight and clear-cut, without time or mileage limits. It shifts our responsibility on to the manufacturer and he lives up to every letter of it. Come in and let us tell you about the guarantee that goes with

## International Court Of Justice Promises Well

Speculation Rife as to Probable Choice of the Council and Assembly.

Geneva.—By a resolution adopted by the council of the League of Nations, which is regarded as promising better results than any other section of the league thus far. Speculation has begun as to the probable choice by the council and assembly of the eleven judges from among about one hundred names thus far submitted.

Canada has submitted the names of Sir Robert Borden and E. T. Tom, C. J. Doherty, minister of justice, for consideration by the league.

As geographical considerations will enter into the election, it is generally assumed the western hemisphere will get two, and perhaps three, judges, one Spanish-speaking from South or Central America, and one each from the United States and Canada. Great Britain is granted one for the United Kingdom and another for the colonies besides Canada.

France will receive one, the Scandinavian countries one, the Slav countries one, and the German-speaking states one, while provision must also be made for the Asiatic states, China, Japan and Siam each having nominated two candidates.

The British candidates are Lord Phillimore, Baron Phillimore, and Sir Henry Eric Richards. South Africa and India also have named candidates.

## Getting After Drug Smugglers

Seaplanes Found to be Invaluable in Watching for Offenders.

Ottawa.—Air patrols have been instrumental in frustrating to a large extent at least, the efforts of smugglers to land huge quantities of drugs illegally on the Pacific Coast, according to reports reaching Air Board officials from the customs department at Vancouver, where seaplanes have been placed at the disposal of the customs officials in their fight against the dope-smugglers.

In a recent patrol, a longshoreman was arrested while trying to smuggle ashore \$150,000 worth of opium from one of the vessels travelling between Canada and the Orient. The circumvention of the drug smugglers is a game which keeps the customs officials on the watch, as new landing places are tried almost for every shipment and it has been found that the seaplane is the only method of transportation speedy enough to enable the customs department to meet the situation.

## War Officially Ended August 31st

Order-in-Council Was Approved By King George.

London.—The King held a Privy Council at Buckingham Palace for the disposal of many matters of business affecting various Government departments.

His Majesty approved an Order-in-Council with respect to the date at which the European war is officially ended. This order-provided for the official termination of the war at midnight on August 31, and to be of general application except in regard to the Ottoman Empire.

This matter, though formal, is of very considerable importance, because many matters of national interest are dependent upon the date at which the war is declared to be at an end.

## Population of Scotland Increases.

London.—The preliminary report of the Scottish census just issued shows that the population of Scotland has increased considerably since the last census was taken in 1911. The population is given as 4,982,000, including 234,800 males and 2,534,000 females, the gross total representing an increase of 121,000 over 1911.

## Want Exchange on Official Basis.

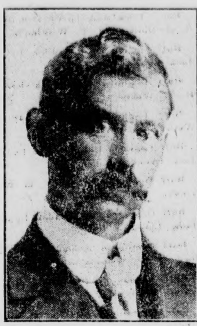

London.—The British Board of Education is advocating that the exchange of teachers between the two parts of the Empire should be established on regular official basis. Hisbert New Zealand is the only Dominion whose Government has given the project direct official support.

## Compliments Lloyd George.

London.—Before leaving the harbor for Bournemouth, Lord George was complimented by a reporter on the fine example he had given the citizens by attending church twice on Sunday.

W. N. U. 1384

## WESTERN EDITORS

A. S. Lochner, publisher of the Journal, Calgary, Alta.

## Indian Disturbances Subsidizing

London.—A Reuter cable from Simla, India, reports that the Mohlan disturbances in some districts are subsidizing and a favorable turn to the situation is expected shortly. Public-spirited Hindu Christian civilians are taking a hand by hearing off the rebels as they appear. This is due to the belief, which is confirmed by local newspapers, that the rising is directed, not merely against the Government, but against all non-Mohlan.

## Loans For Stock Raisers

Bank to Aid Cattlemen Over Times of Low Prices.

Ottawa.—Canadian cattle raisers will be carried over the period of abnormally low prices by advances from the banks secured by their stock. This announcement was made by Hon. S. E. Taché, minister of agriculture.

By arrangement between the Government and the Cattle Raisers' Association, any cattle raiser who asks for a loan and has security in cattle will be given an advance to obtain fodder. Cattle raisers will thus be enabled to carry their stock instead of getting rid of it at sacrifice prices.

Dr. Taché said that the banks will insulate the cattle from the market and that every effort will be made to carry the raisers through. Special consideration will be given to the period of the loans in order to avoid the outbreak to weather the storm.

It is understood that there is no specific limit placed on the total amount which the banks may advance under the arrangement with the Government.

## Printers Resort to Prayer.

Toronto.—Printers of Local 91, International Typographical Union, who have been on strike nearly three weeks, offered no prayers in the labor temple for the success of their fight, according to the Toronto Globe, which adds: "It was the first time a trade union turned to prayer in its fight with employers, and it is doubtful if any other union ever witnessed the labor temple before."

## Pay Insurance For Auto Fatalities.

New York.—An estimate of \$4,500,000 paid by the Insurance Company of the contract in default claims from automobile fatalities during 1920, is published by the Insurance Press. The figures are quoted to show that during the year the automobile caused 12,000 fatalities and a million other injuries.

## Italian Ship in Serious Condition.

Naples.—The situation arising from the retention of the steamship Pechentia in port here since June 8, because of failure to pay for repairs, has become serious because the ship has aboard only five days' rations for its 28 passengers and 253 members of the crew.

## Fire Destroys B.C. Plant.

Nanaimo, B.C.—Fire completely destroyed the plant of the Nanaimo Fish, Meat and Oil Refining Company causing a loss estimated at nearly \$50,000, while there was \$30,000 insurance.

## Steambotting On Saskatchewan River In The Late Seventies

By O. G. MAS-ES (Little Clerk).

(Copyright)

He was to go in his cabin and remain there, hand the boat over to me, with authority. Failing him doing this, I would return and report. He at once marched me round to the mate and steward and gave orders to this effect and disappeared. I walked on shore very leisurely and bustled myself shaking hands with the malcontents. I told them the latest news and generally had a good gossip. Finally I said: "Boys, it is day talking and I want a lunch." So I yelled, "Steward" at the top of my voice. Then to him I said: "You see my friend, here, we are hungry, get your waiter busy and serve us up a first class lunch, and do it quick!" This was done at once and a merry strain followed. Let's be made against the Big Knives (Yankies), and broad withkins of all kinds flow from mouth to mouth. One huge Indian called "Shak-mace" (Mosquito) was the strongest man on board, and evidently a ringleader in the strike. We had all in our pipes, when I issued a challenge to Shak-mace. We would divide the men, tossing up for first choice, and I bet him two sacks of flour to one that my gang could outwork him in a given space of time. The challenge was accepted, and though night had come, it made no difference, as there were plenty of fires. Never was freight unloaded and the boat worked in quicker time. As all the dialogue had been carried on in Cree it was quite a mystery to the officers of the steamer, but I passed the buck to the chief interpreter to start at once. I then visited the old man in the cabin and advised him to keep out of the way as much as possible until the men's anger had cooled down. So away they went, I returning to the Rapids at a much more leisurely pace than when we came up.

Poor old Captain W., an able steambot man, but when trouble of any kind arose he became wild with excitement and his language was unbecomingly so. The Northwest and the Forks of the Saskatchewan all right, but there was not water enough to ascend the Cole's Falls, so the freight was unloaded there and hauled up to Prince Albert, a distance of about 50 miles.

## A Runaway Car at Grand Rapids.

Portage.—Three and a half miles of steel rails crossed the Portage, the height of land was about midway, and a down grade from there both ways. Small flat cars carrying from three to four tons were used, and loaded were the motive power. Hauling up from the base end to the start of the down grade, the mule's single tree was unhitched, the car ran by its own weight and the mule trotted behind, the driver regulating the speed by a chain brake. The chains were old and in poor shape, though new ones had been ordered but never supplied. Sitting at dinner one day at the fine residence at the upper end of the Portage, with a number of passengers waiting for a steamer up the river, a thundering noise was heard. I dashed out, and there, round the bend, came a heavily loaded car at a

furious speed. In charge was a very black French half-breed, with his hair flying in the wind, twisting the brake with all his might. But the chains had broken, so his efforts were fruitless. There was a great gravel walk from the track right up to our front door, and as poor Bendle came to this and noted the big warehouse doors were shut beyond, he gave a wild glance round, and, noting me, jumped the car and old right up the gravel walk, his feet hitting the step hard. He was half unconscious with the excitement and shock, and on examination I found his legs and stern full of gravel pellets, which, as there was no resident doctor, I extracted with a pocket knife, using a log for an operating table.

The car hit some loose freight on the track and dashed through the doors of the warehouse. This fortunately was piled up with flour at the front end of the car, and the damage was not extensive. On reporting the matter, new chains were promptly supplied, so there was some cause for the accident. Mr. Mule had quietly trotted back to his stable at the lower end.

## Retribution

It was rather a grim retribution on this man, as some time before this when he had a lot of loose freight piled under tarpaulins at the lower end of the Portage, I caught him with both hands down to the elbows in a big bucket of butter. The time was about midnight, and his intention evidently was to pull the butter out and fill up the firkin with rubbish, so that it would not check short. I well remember it was flitting moonlight and the expression on his face would have made a good picture. One was murderous, then fear, and so on. Finally all, I marched him round to a leather tapper where we slept, woke the men, had his hands tied behind his back, and set a guard over him until morning. He kept begging and praying me for silence and forgiveness. I phoned the chief (for one of our clever mechanics had made a telephone which actually worked, with copper cans and wire) to come over, which he did in the morning. We gave the culprit a summary trial; deferred sentence was the verdict, and a careful watch was to be kept on him throughout the summer.

While between his groans I was extracting the gravel and then using a strong mixture of carolic acid, which no doubt smarted considerably. I reminded him of his fall from honesty and said no doubt the accident happened to him as a special punishment for his crime. For some time after this he slept on his face, much to the amusement of his comrades.

Like the cart transport, steambotting on the Saskatchewan had its day, and was gradually replaced by rail, the Canadian Pacific railway traversing the prairies and the Qu'Appelle and Long Lake running up to Prince Albert.

The Hudson's Bay Company, with their far-seeing vision, had sold out part of their interests in 1883 to a transportation company, retaining, however, the right of first shipments over all comers.

## Consider Freight Rates Reduction

Ottawa.—Reductions in freight rates were under consideration at a private conference between the Board of Railway Commissioners and representatives of the Canadian Pacific, the Grand Trunk and the Canadian National Railways. Hon. F. B. Carvell, chairman of the Board of Railway Commissioners, has expressed the view that something must be done to meet the present situation and is hopeful that some immediate action will be taken as a result of the conference. In support of a reduction in freight rates, the view is taken that falling wages and cheaper materials have reduced operating costs.

Every dollar spent in your home town is a boost for the community.

## Conference Interests China

China's Participation in Conference On Disarmament to be Held in Washington.

Peking.—Interest in China's participation in the conference on disarmament and Far Eastern questions to be held in Washington, is shown by the formation of a number of associations pledged to support this country's cause at the conference. A large number of prominent Chinese have been enrolled in these organizations since the Peking Government accepted President Harding's invitation to send a delegation to the United States capital. The constitutional party of China, which has issued a call to other provinces to send representatives to Shanghai for a discussion of the Washington conference.

There are 12,000,000 negroes in the United States.

## World Happenings Briefly Told

Lake Huron has the curious record of having more islands than any other lake.

Normal Schools of Manitoba will provide six hundred teachers for the province at sessions to be held this fall. Four hundred, it is expected, will be given permanent certificates, and 200 will be given temporary licenses.

A farmer in touch with the dairy industry, living near Brockville, expressed the opinion that the farmers of that section would not winter more than fifty per cent. of their present herds. He based his prediction on the shortage of hay.

Following a meeting of the German cabinet, President Ebert issued a decree prohibiting meetings, processions, demonstrations and the publication of periodicals and pamphlets likely to encourage seditious movements.

Convicts who dealt in spurious money before becoming inmates of Sing Sing prison have continued to ply their trade behind prison walls; it was learned when it developed that cheques totalling \$14,000 had been forged by prisoners assigned to office duty.

Operators in the alleged \$500,000 "swindle trust" arrested in Chicago have no connection with the Great West Bank of Canada, Winnipeg and Regina. It is stated here by Arthur Banninger, director of the General Bond Corporation, which is promoting the bank.

Final Agreement has been reached between the Manitoba and Ontario Provincial Governments for the connecting of the two provinces by a national highway. The road will enter Manitoba at a point between West Hawk and Falcon Lakes at or near Mile Post 24, on what is called the south route.

## Do you discriminate at the dining table—or are you thoughtless?

In thousands of homes, a "line" is drawn at the breakfast table. Tea or coffee is served for "grown-ups" and Postum for children. But some parents do not discriminate. Tannin and caffeine, the injurious contents of tea and coffee, seriously retard the development of the delicate nerve tissues in children.

Consequently, instead of rich, satisfying Postum, children are over stimulated by the drugs in tea and coffee; and so may grow up irritable and nervous. Any doctor can tell you that this is a great evil and should be corrected.

Although some parents feel a certain justification for the personal indulgence in tea or coffee, yet the harm to them may be equally serious. It may take a little while longer for the drugs in tea and coffee to affect

## A Detector Of Carelessness

Machine Registers Bumps and Knocks Given to Freight In Transit.

Rough handling of freight in railway yards or in transit gives rise to many claims by shippers. In some districts this cause is reckoned as producing from 25 to 30 per cent. of all claims for damages. Railroad managers have wrestled with the problem, which is difficult because it is so hard to trace the carelessness to any one train crew.

Now, however, an instrument has been devised to detect the time and place of damage done to moving freight. It is called an "impact register," and has been made the subject of exhaustive tests by the Chicago, Milwaukee and St. Paul Railroad. The machine is constructed on the principle of the seismograph, and when placed in a box car will record the time of each shock and also the intensity. By this means the management is able to prove exactly when and where, for example, the reckless switching of freight cars was done.

Our morals may not be improving, but our skill in inventing methods to expose bad morals certainly shows no signs of flagging.—The New York Times.

## His Flesh Horribly Burnt

His Druggist sold him a cheap Acid corn remedy, instead of giving him good old reliable Putnam's Corn Extract which has been for fifty years the standard remedy of corns and warts.

"Putnam's" never fails, it always a success. 25c everywhere. Refuse a substitute.

The district visitor in a congested section of the city asked one of the little girls, "Are all these children your brothers and sisters?" "Yes, mum," replied the youngster. "What is the biggest one's name?" queried the visitor. "Maxie, mum." "And the name of the smallest one?" continued the lady. "Minnie, mum."—Buffalo Commercial.

**The Friend of All Sufferers**—Dr. Thomas' Electric Oil is a valuable remedy to all those who suffer pain. It holds out hope to everyone and realizes it by stilling suffering everywhere. It is a liniment that has the blessing of half a continent. It is on sale everywhere and can be found wherever enquired for.

The cheapness of Mother Graves' Worm Exterminator puts it within reach of all, and it can be got at any druggist's.

There is said to be a shooting fly with a hollow, cylindrical beak. When it sees a fly on plants that grow in shallow streams it ejects a single drop of water, which knocks the fly into the tide.

an older person, but in many cases the nervous system and allied bodily functions will become weakened. The surest way to avoid such possibilities is to quit tea and coffee entirely and drink Postum instead. The change permits you to get sound, restful sleep.

Postum is the well-known, meal-time beverage. Like thousands of others you will like it because, in flavor it is rich and satisfying.

Do away with the distinction at the table. Serve delicious Postum, piping hot, to all the family. One week's trial and it is likely that you'll never return to tea or coffee.

Postum comes in two forms: Instant Postum, made instantly in the cup by the addition of boiling water. Postum Cream, made of larger bulk, for those who prefer to make the drink while the meal is being prepared, made by boiling for 20 minutes.

**Postum for Health**  
"There's a Reason"

## LOST 29 POUNDS DYSENTERY WAS THE CAUSE

Dysentery is one of the worst forms of bowel complaint, and hardly any other disease so quickly undermines the strength and brings about a condition of prostration and utter collapse that often terminate fatally.

To check the natural discharge without bringing on constipation you should use that grand old remedy with a reputation extending of 76 years.

## DR. FOWLER'S EXTRACT OF WILD STRAWBERRY

Mr. G. H. McVagh, Mavor, Sask., writes:—"About eight years ago I had a severe attack of dysentery. I was sick for three weeks. I weighed 154 lbs. when I took sick and 125 when I got it stopped. I think I tried every medicine on the market but did not find relief until I used Dr. Fowler's Extract of Wild Strawberry, and one bottle did it. I think there is nothing like it for diarrhoea or dysentery. I always keep some on hand as a person does not know when it will need it."

Price 50c a bottle; put up only by The T. M. L. Co., Limited, Toronto, Ont.

## Silver in the Yukon.

The Geological Survey of Canada has just published a report by W. E. Cochrane on the Mayo district, Yukon Territory, in which argentiferous galena veins are being mined. The galena assays from 200 to 500 ounces of silver per ton, and in places runs as high as 2,000 ounces.

Many a man's popularity is due to the fact that he isn't aware of it.

**Fresh Supplies in Demand.**—Wherever Dr. Thomas' Electric Oil has been introduced, increased supplies have been ordered, showing that wherever it goes this excellent Oil impresses its power on the people. No matter in what latitude it may be found its potency is never impaired. It is put up in most portable shape in bottles and can be carried without fear of leakage.

## Gluten Flour

Its Uses and Characteristics Explained in Government Bulletin.

Nearly all of the so-called gluten flours offered to the public are not made from gluten. Such is the frank statement made by Dr. C. E. Saunders, the Dominion Cerealist, in a bulletin entitled "Wheat, Flour and Bread," recently issued by the Experimental Farms Branch at Ottawa. The named used, says Dr. Saunders, is entirely misleading, for the flours often contain a high percentage of starch and are quite unsuitable for diabetic patients. As a rule the gluten flours offered for sale are practically identical with the whole wheat and graham flours. Genuine gluten flour, which is made by washing the starch out of wheat flour and then drying and grinding, is extremely expensive. Gluten bread has no resemblance to ordinary bread and as a substitute for such is an impossibility. Rather less than 50 per cent. of genuine gluten flour can be mixed with ordinary flour, and bread of medium quality be made. Gluten flour can also be used in the production of pancakes, biscuits and other products provided it be mixed with ordinary flour, the shorts or ground nuts, together with eggs, milk, baking powder, etc. There is, however, no possibility of producing any form of palatable bread, biscuit or cake with a very large proportion of pure gluten flour. Dr. Saunders suggests that physicians would be well advised to take cognizance of these facts and not to expect their patients to purchase what is unpalatable or to eat what is inedible. The bulletin, it might be remarked, goes thoroughly into its subject, treating it in all its phases.

Experience begets wisdom—but usually too late in the game to be of any value.

A gallon was originally a pitcher or jar, no matter of what size.

It makes a difference whether people say things or do them.

Unless a man has horse sense he is apt to make a donkey of himself.

Mimir's Liniment used by Physicians

## Embroidery Adorns A Navy Serge Coat

By Marie Belmont

The loose-sleeved coat is an admirable addition to the wardrobe of the well-dressed woman. This model is cut from a very fine piece of navy blue serge. It shows the dropped armhole which insures comfort as well as preventing the crushing of the flimsy frock. The bell-sleeved sleeves are finished with a deep stretch of embroidery which reveals both Copenhagen and tan silks. The lower part of the wrap is similarly adorned. Oblong bone buttons make a distinctive fastening, while the high collar emphasizes a new style note for fall. The felt hat shows a feather trimming.

## FOR STIFF NECK AND SORE THROAT

Immediate relief comes from rubbing Nerviline over the chest and lower part of the neck. Rub in deep creases of collar, and Nerviline reaches the congested parts at once, relieves tightness, takes out the soreness, soothes the throat and restores the home relieves a hundred ills, internal and external. Used for nearly half a century as a general household remedy, large bottles 35c at all druggists.

## Bumper Apple Crop.

The most recent reports received by the Provincial Department of Agriculture from the fruit districts of British Columbia state that the apple crop will be 100 per cent. greater this year than last year. The crop will require, it is estimated, 5,000 freight cars to take care of the exports.

## What One of the Best Known Travellers in Canada Says

"Now I have a testimonial as to my use of the patent medicine Nerviline. I have had a profound effect for the treatment of my ailment, particularly my sore throat. Perhaps this is due to the reason that I have been blessed with a sturdy constitution, and have never been ill in my life. One day last fall after a hard day's tramp in the state of Montana, I developed a severe pain in my legs and, of course, like a man who has never had anything wrong with him, physically, I complained rather hysterically. The good little wife said, 'Well, rest them with some liniment I have.' 'Go ahead,' I said, just to humor her. She rubbed some with a little of Mimir's Liniment and again, 'Before the pain disappeared, a minute after, and you can tell the world, I said so.'"

(Signed) FRANK E. JOHNS, Montreal.

At one period in Holland there was a ban on the sale of oranges and carrots. The reason was the hostile feeling toward the Statholder's family, whose favorite color was orange.

Worms are encouraged by morbid conditions of the stomach and bowels, and so subsist. Miller's Worm Powder will alter these conditions almost immediately, and thus drive the worms away. No destructive parasite can live in contact with this medicine, which is not only a worm destroyer, but a health-giving medicine most beneficial to the young constitution.

High-grade fountain pens are tested by an instrument called a micrometer. If one piece of the mechanism is out a six-hundredth part of an inch the micrometer rejects it as faulty.

Keep Mimir's Liniment in the house

## Miss Ella Johnson Tells How Cuticura Healed Pimples

"My trouble began as small pimples and in a few months they got worse and my forehead was just a mass of large pimples. They were hard and red and caused me to scratch, and I was disgusted for the time. They made me embarrassed when out in company. I tried castor oil but it was of no help. I saw a Cuticura Soap and Ointment advertisement and sent for a free sample. After using them I bought more, and when I had used one case of Cuticura Soap and one box of Cuticura Ointment for about a month I was completely healed." (Signed) Miss Ella May Johnson, Box 65, Canaan, Idaho, March 9, 1920.

Cuticura Soap, Ointment and Talcum promote and maintain a skin pure, free from all skin blemishes often when all else fails.

See Dr. C. O. Johnson at the T. M. L. Co., Ltd., 100 St. Paul St., W. Montreal.

Free Cuticura Soap and Ointment sent upon request.

## A Quater Language.

A Frenchman learning English said to his tutor: "English is a quater language. What does this sentence mean? 'Should Mr. Noble, who sits for this constituency, consent to stand again and run he will in all probability have a walkover?'"

## SUMMER HEAT HARD ON BABY

No season of the year is so dangerous to the life of little ones as the summer. The excessive heat throws the little stomach out of order so quickly that unless prompt aid is at hand the baby may be beyond all human help before the mother realizes he is ill. Summer is the season when diarrhoea, cholera infantum, dysentery and colic are most prevalent. Any one of these troubles may prove deadly if not properly treated. But there is a remedy, the mother's best friend is Baby's Own Tablets. They regulate the bowels, soothe the stomach and restore healthy. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

## Safety First.

Pop—I heard something about you today.  
Billie—It's not true, Pop. I never did such a thing in my life—Monston Post.

The word "reverend" only occurs once in the Old Testament.

No substance that refuses to dissolve in water has an odor.

## MONEY ORDERS

Sent a Dominion Express Money Order, Five dollars costs three cents.

## Cook's Cotton Root Compound

A safe, reliable regulating medicine. It is a sure cure for all ailments of the bowels. It is sold by all druggists and is sold by mail at 25 cents a box from Cook's Compound Co., Toronto, Ont. (Twenty Wines).

BOOK ON DOG DISEASES AND HOW TO FEED THEM. Send for free copy. Address to H. CLAY GLOVER, America's Pioneer Dog Remedies, 118 West Adelaide, New York, U.S.A.

## ASPIRIN

"Bayer" is only Genuine

Warning! It's criminal to take a chance on any substitute for genuine "Bayer" Tablets (Aspirin) as prescribed by physicians for twenty-one years and proved safe by millions. Unless you get the genuine "Bayer" on package or on tablets you are not getting Aspirin at all. In every Bayer package are directions for use. Twelve tablets cost few cents. Druggists also sell larger packages. Made in Canada. Aspirin is the trademark (registered in Canada) of Bayer Manufacture of Monosaccharides of Salicylic acid.

## CRESSMAN BROS.

## AROUND THE TOWN

Dr. J. A. Clarke returned last week from his visit to the coast.

Mr. R. Weber and family have moved into Mr. H. Gabel's residence. Mrs. Fred Diebel of Calgary is visiting relatives in town.

Miss Avril Ryckman left for her home in Chilliwack, on Tuesday.

Mrs. Murat of Edmonton is visiting her niece Mrs. G. H. Liesemer.

Mr. J. L. Brown and family of Calgary, motored up to Didsbury on Labor Day.

Mrs. H. W. Gabel and children left for Ontario where they will make an extended visit.

Miss Florence Heiber has returned to town after being a few months in Calgary.

Miss Beale Clemens left last Monday to train for nurse at the Holy Cross Hospital in Calgary.

Mr. W. Moran, formerly of the Union Bank staff here spent the week end in town.

Mr. and Mrs. Berscht, Russell and Leonard spent Labor Day with relatives at Three Hills.

Mr. W. S. Darrer motored to Three Hills on Labor Day visiting at Mr. Sanderman's.

The Kahlfleisch brothers, Mr. Hoffman and Mr. J. V. Berscht motored to Banff last week.

Mr. Levi Snyder has been confined to his bed these last few days. His many friends wish him a speedy recovery.

King Hiram Lodge, A. F. and A. M., will hold a regular meeting on Tuesday night next after a short recess. Carstern Lodge will visit Didsbury and exemplify the Third Degree.

The second annual School Fair will be held on Tuesday, Sept. 27th, at the Fair grounds. Prize lists and further information will be issued next week.

Mr. Louis Kahlfleisch, of Three Hills, accompanied by his brothers George and Ed, and their brother-in-law, Mr. Hoffman from Ontario, spent a few days visiting relatives in town.

Mr. H. L. Reimer has opened up a new restaurant in the Jackson Block, west of the Pioneer office. He states that he is supplying good meals at reasonable prices and employs nothing but white help.

Dr. Geo. R. Kennedy of Kennedy and Inman, Palmer Graduate Chiropractors, of fourth floor Elma Block, 132-8th Ave E, Calgary will open a branch office at the Rosebud Hotel, Didsbury, every Monday, Wednesday and Friday morning from 10.30 to 12.35, commencing Monday September 12th.

Miss Irene E. Gardiner of Calgary, who is taking over Miss Somerville's classes in music, will be at the residence of Mrs. G. Smith each Friday and Saturday commencing Sept. 2nd. She will be pleased to meet any parents or pupils wishing to arrange for lessons. Pupils prepared for examinations in the Royal College of Music London England.

Talk about a man coming back! Jim Jeffries nor Corbett never could but our own Chief of Police, Sick, seems to have that faculty. He this week sold his whiskers to Jim Phil. Upon for \$5.00, proceeds to go to the Didsbury Hospital. Dad is sure a real sport and we would like to have him here to sell many more whisker crops. Our local tonsorial artist, Johnson, officiated at the ceremony.

WANTED:—Pupils. Theory and piano, a very good class for beginners up to higher division grade, 50 cents a lesson. Apply Didsbury Pioneer. 2-36
